## APPENDIX

### Patient Care Forms
- Maryland Prenatal Risk Assessment Form (DHMH 4850) - p. 31
- Maryland Prenatal Risk Assessment Instructions for Completion - p. 32
- Enriched Maternity Services Record Form - p. 33
- Consent for Sterilization – English (HHS-687) - p. 34
- Consent for Sterilization – Spanish (HHS-687-1) - p. 35
- Document for Hysterectomy (DHMH 2990) - p. 36
- Certification for Abortion (DHMH 521) - p. 37

### Telephone Resources
- Local Health Department Administrative Care Coordination Units (ACCU) - p. 38
- Local Health Department Eligibility Units - p. 39
- Local Health Department MA Transportation Programs - p. 40
- Local Health Department Women’s Breast and Cervical Cancer Programs - p. 41
- Managed Care Organizations Contact List - p. 42
- Managed Care Organizations Substance Abuse Services Contacts - p. 43
- Managed Care Organizations Prenatal Programs - p. 44
- Federally Qualified Health Centers - p. 46
- Maryland Medical Assistance Program Referral Directory - p. 50

### Procedure Codes
- Maryland Medicaid Family Planning Program Covered Services - p. 51
- Maryland Medicaid Hysterectomy Services Codes - p. 54
Section I

INTRODUCTION

A. PURPOSE

The manual provides an overview of Medical Assistance Program administrative guidance and billing instructions to Medicaid providers rendering prenatal, gynecological, and family planning services to women enrolled in Maryland Medicaid’s “fee-for-service” and “managed care” programs. **Please note that hospital outpatient departments may have different claim forms than those outlined in this manual.** NOTE: The OB/GYN/Family Planning Provider Services Manual can be accessed from the Department of Health and Mental Hygiene’s web site at http://mmcp.dhmh.maryland.gov/SitePages/Providers%20Information.aspx

Providers must follow the instructions in the **Maryland Medical Assistance Physicians’ Services Provider Fee Manual**, the CMS-1500 Billing Instructions and when contracted with an MCO, the MCOs Provider Manual.

B. HIPAA PRIVACY

The Administrative Simplification provisions of the Health Insurance Portability and Accountability Act (HIPAA) of 1996 require the use of standard electronic health transactions by health insurance plans; including private, commercial, Medicaid and Medicare; healthcare clearinghouses and healthcare providers. The primary intent of the law is to allow providers to meet the data needs of every insurer electronically with one billing format using standardized healthcare industry data and code sets. **HCPCS** is the specified code set for procedures and services. Additional information on HIPAA can be obtained from the Department’s web site at http://dhmh.maryland.gov/hipaa/SitePages/Home.aspx

C. NATIONAL PROVIDER IDENTIFIER (NPI)

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) included a requirement to adopt standard unique identifiers for health care providers. Providers that conduct any of the HIPAA standard transactions, including electronic claims, eligibility, claim status, or remittance, must use an NPI. The NPI is a 10-digit identifier that will replace all existing provider identifiers. To obtain an NPI, organizational and individual providers can submit an NPI application either online or by mail. To apply online go to: https://nppes.cms.hhs.gov/NPPES or call 1-800-465-3203 to request an application by mail. Additional information can be obtained at http://mmcp.dhmh.maryland.gov/SitePages/NPI%20New%20Billing%20Instructions.aspx

Maryland Medicaid is collecting provider NPI numbers. Please send a copy of the CMS NPI notification letter to:

Maryland Medical Assistance - Provider Enrollment
201 W. Preston Street, LL3
Baltimore, MD 21201

A copy of the CMS NPI notification letter may also be faxed to Provider Enrollment at 410-333-5341.
D. BILLING INFORMATION

**Fee-for-Service (FFS) Billing**
Providers must bill on the CMS-1500. Claims can be submitted in any quantity and at any time within the filing limitation. Claims must be received within 12 months of the date of service.

The following statutes are in addition to the initial claim submission:

- 12 months from the date of the IMA-81 (Notice of retro-eligibility)
- 120 days from the date of the Medicare EOB
- 60 days from the date of Third Party Liability EOB
- 60 days from the date of Maryland Medicaid Remittance Advice

The Program will not accept computer-generated reports from the provider’s office as proof of timely filing. The only documentation that will be accepted is a remittance advice, Medicare/Third-party EOB, IMA-81 and/or a returned date stamped claim from the Program.

**Paper Claims Submission:** Once a claim has been received, it may take 30 business days to process. Invoices are processed on a weekly basis. Payments are issued weekly and mailed to provider’s “pay-to-address”. All claims should be mailed to the following address:

**Maryland Medical Assistance Program**
**Claims Processing**
**P.O. Box 1935**
**Baltimore, MD 21203-1935**

**Electronic Claims Submission:** Providers desiring additional information regarding electronic billing should contact the Electronic Billing Unit at 410-767-4682.

**MCO Billing**
MCO members are required to use in network providers for most medical services. MCOs are responsible for some out of network care received by their members. If billing the MCO for services, the provider should follow the MCO billing instructions.

E. THIRD PARTY RECOVERIES

The Medical Assistance Program is the payer of last resort. If a recipient is covered by MA and private insurance, the provider must first bill the recipient’s other insurance. There are a few exceptions to this requirement. Prenatal providers are permitted to bill the MCO or MA Program for prenatal care without first billing the recipient’s other insurance. The MA Program assumes responsibility for recovering payment from the recipient’s other insurance company.

F. OVERVIEW

The Maryland Department of Health and Mental Hygiene (DHMH) is committed to ensuring that all women have access to quality obstetrical, gynecological, and family planning services. Over the past several years, the state has greatly expanded Medicaid eligibility for pregnant women through the Maryland Children’s Health Program (MCHP) and the Medical Assistance for Families Program. Beginning January 1, 2012 Medicaid’s Family Planning Program will expand eligibility for family planning services to all women under age 51 who meet eligibility criteria, as a result of Senate Bill 743 - *Family Planning Works Acts* which passed during the 2011 legislative session.
Improved communication between local health departments (LHD), managed care organizations (MCO), and private providers are facilitated by the Administrative Care Coordination/Ombudsman Program, which has reduced some of the barriers to care encountered by pregnant women and women seeking family planning services. The strengthening of established public and private sector partnerships will further reduce access to care barriers for these populations.

One of Maryland’s goals is to assure that all women have access to high quality prenatal, postpartum, and family planning services regardless of their family income. Your participation in the Medicaid Program is critical to ensuring that all women have access to comprehensive services.

**Medicaid**, also known as Medical Assistance (MA) is a joint federal and state program authorized under Title XIX of the Social Security Act to provide health and long-term care coverage to low-income individuals and persons in certain categories. DHMH provides Medicaid coverage to individuals determined to be categorically eligible or medically needy.

Medicaid coverage is automatically granted to persons receiving certain other public assistance, such as Supplemental Security Income (SSI), Temporary Cash Assistance (TCA), or Foster Care. Maryland Medicaid also provides similar coverage for moderate to low-income children and pregnant women under the Maryland Children’s Health Program (MCHP), MA for Families, and MCHP Premium Programs and a limited benefits package for women under the Family Planning Program.

Women in need of medical services and treatment may also be eligible for the **Women’s Breast and Cervical Cancer Health Program** (see Appendix). The Medical Assistance for Families Program will provide women with the full range of Medicaid services, if they meet certain income requirements and have children. Those in need of primary care, prescription medications, substance abuse treatment, emergency facility and family planning services may be eligible for the Primary Adult Care Program (PAC).

Most pregnant women in Medicaid/MCHP receive health care services through Maryland’s **HealthChoice Program**. HealthChoice is Maryland’s statewide mandatory managed care program, which began in 1997. HealthChoice recipients enroll in a managed care organization (MCO) of their choice and select a primary care provider (PCP) to manage their medical care. MCO’s participating in the HealthChoice program are responsible for providing the full range of health care services covered by the Medicaid “fee-for-service” program, except for certain Medicaid-covered benefits that are “carved out” and available to enrollees outside the MCO.

The following managed care organizations currently serve Maryland’s Medicaid recipients:
- AMERIGROUP Community Care.
- Diamond Plan from Coventry Health Care
- Jai Medical Systems
- Maryland Physicians Care
- MedStar Family Choice
- Priority Partners
- UnitedHealthcare
G. PROGRAMS and SERVICES

Under Medicaid’s HealthChoice and Acute Care Administration (HCACA), the Division of Outreach and Care Coordination, comprised of two units, the Programs Unit and Complaint Resolution Unit (CRU), manages the following programs and services:

- Administrative Care Coordination/Ombudsman Program
- Medicaid Policy for Obstetrical and Family Planning Services
- Medicaid Family Planning Program
- Primary Adult Care Program
- Complaints/Appeals

The Programs Unit has a team of nurses who serve as regional consultants to local health departments (LHD), managed care organizations (MCO), and providers. Nurse consultant services include:

- Distribution of applicable administrative manuals/resources
- Interpretation of Medicaid health policies and federal/state regulations
- Staff training on Medicaid standards and procedures
- Assistance with Medicaid/MCO billing
- Education of providers about various aspects of MCO and fee-for-service issues

The Programs Unit can be reached by calling 410-767-6750 or 1-800-456-8900.

The Complaint Resolution Unit, comprised of a team of nurses, is charged with providing a central complaint program to monitor the complaints and grievance process for recipients enrolled in HealthChoice and PAC.

LHD Ombudsman

The HealthChoice Program is required to provide an Ombudsman to assist members who are experiencing a dispute or dissatisfaction with their MCO regarding adverse actions. The local Ombudsman Program operates under the direction of the HealthChoice and Acute Care Administration’s Complaint Resolution Unit (CRU). Providers are asked to respond promptly to the CRU staff or LHD Ombudsman when contacted for information about a specific issue. The Enrollee Action Line (1-800-284-4510) is available for recipients with inquiries or to request assistance with problems with their MCO. Providers may call the Provider Hotline (1-800-766-8692) for assistance with resolving problems related to care access on behalf of recipients.

Transportation Services

The Medicaid Program provides transportation grants to each local jurisdiction to assist clients with transportation to Medicaid covered services (see appendix). The MCO may also provide limited transportation assistance.

Interpretation Services

For information regarding interpretation services, contact the MCO for assistance.

H. APPEAL PROCESS

Enrollees or someone on behalf of the enrollee can Appeal to the State to review an Action by the managed care organization (MCO):
• A HealthChoice Enrollee should contact the Department’s Enrollee Help Line at:
  1-800-284-4510 between 7:30 a.m. and 5:30 p.m.
• A PAC enrollee should contact the Department’s Enrollee Help Line at:
  1-800-754-0095 between 7:30 a.m. and 5:30 p.m.
• Providers on behalf of recipients should contact the Department’s Provider Help Line at:
  1-800-766-8692 between 8:00 a.m. and 5 p.m.
• The Help Line will provide information on how to request a Fair Hearing.
• Medical cases involving preservice denial of services/benefits will be referred to the Complaint Resolution Unit, who will attempt to resolve the Action with the MCO in 10 business days. If it cannot be resolved in 10 business days, a notice will be sent that gives the enrollee a choice to request a Fair Hearing or wait until the Complaint Resolution Unit has finished its review of the case. When the review is finished, if the enrollee does not agree with the decision that he/she will receive in writing, another notice will again be sent to the enrollee on how to request a Fair Hearing.

The State’s Decision on the Appeal

After all the facts about the MCO appeal have been reviewed by the State, one of the following will occur:

• The State will order the MCO to provide the benefit or service; or
• The State will inform the enrollee and the doctor in writing that the State agrees with the MCO.

What Kind of Decisions Can Be Appealed

Below are examples of decisions made by the State that can be appealed. An enrollee, provider, or representative on behalf of the enrollee can Appeal a decision when the State:

• Agrees with the MCO that a benefit or service that the enrollee is receiving should be denied or reduced;
• Agrees with the MCO that a benefit or service is not medically necessary;
• Agrees with the MCO that a benefit or service is not covered by the MCO.

Fair Hearings

To Appeal one of the State’s decisions, a request is made for the State to file a notice with the Office of Administrative Hearings on behalf of the enrollee. This will be the appeal against the State. The MCO may appear as witness for the State at the Fair Hearing.

The Office of Administrative Hearings will set a date for the Hearing based on the type of decision being appealed.

• If the Appeal is about the MCO reducing or not giving the enrollee a benefit or service because it (and the State) thinks there is not a medical need for the benefit or service, the Office of Administrative Hearings will set a hearing date from the date the request is filed with the Office of Administrative Hearings. The Office of Administrative Hearings will make its decision on the case, usually within 30 days of the date of the hearing.
• If the Appeal is about urgent and/or emergent services, the Office of Administrative Hearings may set an expedited hearing date within 3 days from the date the request is filed with the Office of Administrative Hearings. The Office of Administrative Hearings will usually make its decision on the case within 3 days of the date of the hearing.
- For all other appeals, the Office of Administrative Hearings will set a hearing date within 30 days of the date the request is filed with the Office of Administrative Hearings.
- The Office of Administrative Hearings will usually make its decision on the case within 30 days of the date of the hearing.

If a recipient is receiving ongoing services that are being denied or reduced and wishes to continue the services, they must call the HealthChoice Complaint Resolution Line to request the Fair Hearing within 10 days of the notice of denial/reduction of services by the MCO. The services will then be continued throughout the appeal process by the MCO. The recipient may have to pay for the cost of any continued services if the MCO’s denial/reduction is upheld at the Fair Hearing.
Section II

MEDICAID ELIGIBILITY

Most women who receive Medicaid are in one of five eligibility categories: general Medicaid, Maryland Children’s Health Program (MCHP), MA for Families Program, Primary Adult Care Program (PAC) and Family Planning Program. Women are eligible for coverage and health benefits based on eligibility criteria, including qualifying income, based on Federal Poverty Guidelines (FPL), which are subject to change annually.

A. GENERAL MEDICAID

Women whose family income is at or below 45% of the FPL may apply for general Medicaid. Women who receive benefits under general Medicaid will continue to have their eligibility reviewed every six months, irrespective of pregnancy. These women should be encouraged to contact their local department of social services (LDSS) case worker to ensure that their eligibility is not interrupted during pregnancy and full MA coverage, including family planning services, continues beyond the postpartum period.

B. THE MARYLAND CHILDREN’S HEALTH PROGRAM (MCHP)

The Maryland Children’s Health Program (MCHP) provides full health benefits for children under the age of 19 and pregnant women. Currently, pregnant women whose family income is at or below 250% of the FPL are eligible for health care coverage through MCHP. To check the income guidelines, go to [http://dhmh.maryland.gov/chp/docs/MCHP_Elig_Charts_Eng_and_Span_Rvsd_2011_1.pdf](http://dhmh.maryland.gov/chp/docs/MCHP_Elig_Charts_Eng_and_Span_Rvsd_2011_1.pdf)

Refer all uninsured pregnant women to the local health department (LHD) eligibility unit (see appendix) the local Department of Social Services (LDSS) or MCHP through the Maternal/Child Health Information Line at 1-800-456-8900. Pregnant women and children can have third party health insurance and still qualify for Medicaid.

Once a pregnant woman is determined eligible for MCHP, she has coverage through the duration of her pregnancy and two months postpartum. Each woman will have a primary care physician. MCHP covers the same services as general Medicaid with the exception of abortions, which, are not covered for pregnant women who enrolled for coverage under MCHP.

Dental services are covered for pregnant women and children. There are no pharmacy co-pays for pregnant women and children in any eligible Medicaid programs.

C. THE MEDICAL ASSISTANCE for FAMILIES PROGRAM

Parents or other family members caring for children with incomes at or below 116% of the Federal Poverty Level (about $25,000 annually for a family of four), depending on family size, may qualify for Medical Assistance for Families. This program includes the full array of MA benefits, such as doctor visits, mental health and substance abuse treatment, hospital stays and prescription drugs. This expansion means that more women now qualify for Medical Assistance. This provides access to well women care and family planning services so that they are healthier prior to pregnancy.
Since many first time mothers will qualify for MA under this program, they should be sure to apply after delivery. For more information, go to http://dhmh.maryland.gov/ma4families/SitePages/Home.aspx. Dental services are covered for pregnant women and children. Some MCOs offer limited dental services to adults. There are no pharmacy co-pays for pregnant women or children in any eligible Medicaid programs. There may be co-pays for other eligible individuals. Recipients should check their MCO’s handbook for information.

D. THE MEDICAID FAMILY PLANNING PROGRAM (MFPP)

Effective January 1, 2012, the Maryland Medicaid Family Planning Program provides services to women under 51 years of age with income at or below 200% of the federal poverty level (FPL). Women who are not pregnant must submit an application to determine eligibility for the FPP. The FPP covers services related to birth control only. The program does not cover abortion services or prenatal care.

E. THE PRIMARY ADULT CARE PROGRAM (PAC)

The Primary Adult Care (PAC) program is for low income individuals over the age of 19 who do not have dependent children and do not have Medicare. PAC services are delivered by participating primary care providers who are enrolled in managed care organizations (MCO). PAC covers pharmacy, primary health care, mental health care, some substance abuse treatment services and emergency room facility costs. PAC covers all family planning methods except sterilization, because inpatient and specialty care is not covered. Pregnancy care is not covered under PAC. Pregnant women are not eligible for PAC and if a woman enrolled in PAC becomes pregnant, she must apply for MCHP.

Women can self-refer to any participating family planning provider as long as the provider agrees to bill the MCO. Additionally, under PAC the MCO must provide routine gynecologic care. PAC covers screening mammograms and pap smears; however, visits to the GYN for diagnostic tests and specialty care are not covered. Call 1-800-284-4510 to get a list of the MCOs that participate in the PAC program.

There may be co-pays for medications. Some MCOs offer limited dental services.

F. EMERGENCY MEDICAL ASSISTANCE for UNDOCUMENTED IMMIGRANTS

Low income undocumented or ineligible immigrants who are Maryland residents may qualify for coverage of “emergency” medical services for hospital inpatient and related services. This emergency coverage includes labor and delivery, but not routine prenatal or postpartum services for the mother. Women seeking coverage for delivery related services under the emergency provision can apply to their local department of social services (LDSS) or health department (LHD) prior to delivery. In lieu of a MA card, these women will receive a letter which will include their MA number and instructions to present the letter to the hospital or health care provider at the time of delivery. Eligibility can also be verified by using the EVS system. Pregnant women who receive temporary coverage for labor and delivery services are ineligible for enrollment into HealthChoice.

When an undocumented or ineligible pregnant woman has not applied prior to delivery, she can apply for retroactive MA coverage for herself and coverage for her newborn after delivery. However, she must then provide a copy of her hospital discharge summary to the LHD or LDSS.
G. NEWBORN ELIGIBILITY and CLAIMS

All newborns born to women who are enrolled in Medicaid at the time of birth are also eligible for Medicaid. Coverage will begin at birth and continue through the infant’s first birthday. If a pregnant woman is enrolled in an MCO at the time of delivery, her newborn is automatically enrolled in the same MCO. Women should be encouraged to choose a provider for their newborn by the eighth month of pregnancy. Please encourage her to call her MCO’s Member Services Department of her MCO immediately after delivery to inform them of the delivery and the pediatrician’s name.

To initiate coverage for the newborn, MA requires that the hospital of birth complete a *Hospital Report of Newborn (DHMH 1184)* and fax it to the DHMH Recipient Master File Unit at 410-333-7012. Once the form is received, the newborn’s temporary Medical Assistance number will be sent to the birth hospital, mother’s MCO, and the client’s designated eligibility office at either the local health department or local department of social services. The local eligibility unit will then activate the newborn’s case in the *Client Automated Resource & Eligibility System (CARES)*, which will generate a permanent Medical Assistance number for the newborn.

**NOTE:** When submitting claims for services rendered to newborns, providers must use the newborn’s name and unique medical assistance number. **Do not use the mother’s MA#.**

Each managed care organization is required to have a *Newborn Coordinator*. This individual serves as the point of contact for providers who have questions or concerns related to eligibility and the provision of services to newborns within the first 60 days of birth. To reach a Newborn Coordinator, see MCO Contact Information located in the appendix.
Section III

MEDICAID APPLICATION PROCESS

A. CITIZENSHIP AND IDENTITY DOCUMENTATION

Effective July 1, 2006, federal law required verification of citizenship and identity as a condition for Medical Assistance eligibility. The Maryland Department of Health and Mental Hygiene began implementing this new federal law on September 1, 2006. New recipients must provide documentation to prove citizenship and identity. NOTE: Documentation is not required for newborns whose mother was enrolled in MA or MCHP on the date of delivery. Applicants and recipients who have questions about these requirements can call 1-866-676-5880 for additional information and assistance. Further information can also be found at http://dhmh.maryland.gov/SitePages/citizens.aspx by clicking on the link to Proof of Citizenship and Identity. Timeliness is critical to the provision of health care to pregnant women and those applying for family planning services. Questions regarding MCHP or the Accelerated Certification of Eligibility (ACE) can be directed to the Maternal-Child Information Line at 1-800-456-8900.

B. MARYLAND CHILDREN’S HEALTH PROGRAM (MCHP)/ MEDICAL ASSISTANCE FOR FAMILIES

Refer all uninsured women to the local health department (LHD) Eligibility Unit (see appendix) or the Maternal-Child Information Line at 1-800-456-8900. Applications are available online at http://dhmh.maryland.gov/ma4families/SitePages/Home.aspx. Note: the same application is used for MCHP and the Medical Assistance for Families Program. Individual circumstances will determine under which program the women qualifies for MA.

- Pregnant women applying for coverage through MCHP are not required to provide written proof of pregnancy. The pregnant woman’s declaration that she is pregnant is acceptable. Her expected due date must be on the application.

- A pregnant woman may mail, fax or bring her signed application to the LHD or LDSS in her county of residence.

- Applications from pregnant women are given priority, and in most cases eligibility can be determined through the Accelerated Certification of Eligibility (ACE) within two working days from the receipt of the completed application.

- Most women will be required to enroll in a managed care organization (MCO).

- Women have 21 days from the date eligibility notification and MCO information is mailed from the Department to choose an MCO; if they fail to do so, they will be auto-assigned.

C. ACCELERATED CERTIFICATION OF ELIGIBILITY (ACE)

- The LHD or LDSS is required to process MA applications for pregnant women, except undocumented or ineligible women, within two working days of receipt of a completed application.

- Eligibility requirements include that the pregnant woman must have a social security number and she must declare that she is a U.S. citizen, legal permanent resident or alien lawfully residing in the U.S. in order to qualify for ACE.
- Income is self-declared and if family income appears to be within income limits (up to 250% of the FPL) MA eligibility is granted for 3 months, while a final determination of eligibility is rendered.

- MA coverage begins on the first day of the month in which the application is received by the LHD or the LDSS. If all information is verified, eligibility will continue through pregnancy and two months postpartum. If it is determined she is not eligible for MA, coverage will end after three months.

- Pregnant women certified under ACE will be enrolled in the MCO of their choice.
Section IV

ELIGIBILITY VERIFICATION SYSTEM

A. INTRODUCTION

The Maryland Medicaid Eligibility Verification System (EVS) is a telephone inquiry system that enables health-care providers to quickly and efficiently verify a Medicaid recipient’s current eligibility status.

A Medical Assistance card alone does not guarantee that a recipient is currently eligible for Medicaid benefits. You can use EVS to quickly verify a recipient’s eligibility status. **To ensure recipient eligibility for a specific date of service, you must use EVS prior to rendering service.**

EVS is fast and easy to use, and is available 24 hours a day, 7 days a week. EVS requires only seconds to verify eligibility and during each call you can verify as many recipients as you like. EVS is an invaluable tool to Medicaid providers for ensuring accurate and timely eligibility information for claim submissions.

EVS provides you with the capability of verifying past dates of eligibility for services rendered up to one year. Additionally, if the Medical Assistance number is not available, you can use the recipient’s Social Security number and name code to obtain the ID number.

For providers enrolled in eMedicaid, “WebEVS”, a web-based eligibility system is available. Providers must be enrolled in eMedicaid in order to access “WebEVS”. To enroll and access “WebEVS” go to [https://encrypt.emdhealthchoice.org/emedicaid](https://encrypt.emdhealthchoice.org/emedicaid) and select “Services for Medical Care Providers” and follow the login instructions. If you need information, please visit the website or for provider application support call 410-767-5340. For questions about “WebEVS”, please contact Provider Relations at 410-767-5503 or 1-800-445-1159.

B. WHAT YOU NEED

- A touchtone phone
- The EVS access telephone number
- Your Medicaid provider number (NPI after July 30, 2007)
- The recipient Medicaid number and name code or social security number and name code
- Date of service, if other than current date

C. HELPFUL TIPS

- You must press the pound key **once** (#) after entering data requested in each prompt.
- If you make a mistake, press the asterisk (*) key once. EVS disregards the incorrect information and repeats the prompt.
- If you do not enter data within a predetermined time period after a prompt, EVS re-prompts you. If you fail to enter data after the second prompt, EVS will disconnect the call.
- To end the call press the pound key **twice** (##) at any prompt prior to entering data. The system responds “Have a good day” and disconnects your call.
EVS provides current information up to the previous business day. **Please listen closely to the entire EVS message before ending the call** so that you don’t miss important eligibility information.

- The EVS message will give you the name and phone number of the woman’s managed care organization (MCO), if she is enrolled in “HealthChoice”. Providers can press “3” and the call will be transferred directly to the MCO’s call center to verify primary care physician (PCP) assignment.

- The EVS message for recipients that are eligible for services and are “fee-for-service” (not enrolled in HealthChoice) is “Eligible for date of service”.

- The EVS message for recipients eligible for services and a member of a MCO is “Recipient is in HealthChoice” (identifies MCO and phone number).

- The EVS message for recipients eligible for services and a member of a MCO is “Recipient is in HealthChoice” (identifies MCO and phone number).

- The EVS message for women enrolled in the Family Planning Program is “Recipient is eligible for family planning services only. Abortion and Infertility services are not covered.”

- The EVS message for recipients enrolled in the Primary Adult Care Program under “fee-for-service” (not enrolled in an MCO) will indicate, “recipient has pharmacy and outpatient mental health coverage only”.

- The EVS message for recipients enrolled in the Primary Adult Care Program (enrolled in an MCO), will indicate, “recipient has PAC primary care benefit payer” (identifies MCO and phone #) and “Specialty Mental Health and HIV drugs are Fee For Service.”

- The EVS message for recipients who are eligible but have other insurance is “recipient has other insurance (gives policy number and phone number). The insurance company listed should be billed prior to State Medicaid. For further information, call 410-767-1773”

- If you have questions about the different types of eligibility, call the Maternal-Child Health Information Line at 800-456-8900.

- If you need further assistance with EVS, call Provider Relations Monday – Friday between 8:00 a.m. and 5:00 p.m. at 410-767-5503 or 800-445-1159.

### D. HOW TO USE EVS

- Call the EVS access telephone number:
  1-866-710-1447 (*State-wide*)

- Enter your 9 digit provider number (10 digit NPI after July 30, 2007) and press the pound key once (#)
  
  **Example: 012345678#**
For **current eligibility** enter the 11-digit recipient number and the 2-digit name code (the first two letters of the last name converted into numeric touchtone numbers) and press the pound key once (#).

**Example:** For recipient Mary Stern, you would enter: 11223344556 (recipient ID number) and 78# (7 is for “S” in Stern and 8 is for “T” in Stern)

**NOTE:** Since the characters Q and Z are not available on all touchtone phones, enter the digit 7 for the letter Q and digit 9 for the letter Z. Use a zero (0) for space if recipient has only one letter in last name. **Example:** Malcolm X; name code =X0

EVS will respond with current eligibility information or an error message if incorrect information has been entered.

For **past eligibility** you can search a recipient’s past eligibility status for up to one year. To do a search of past eligibility, enter a date of up to one year using the format **MMDDCCYY**

**Example:** For recipient Mary Stern, where the date of service was January 1, 1995, you would enter: 11223344556 (recipient ID#) and 78 (last name code) and 01011995# (service date)

EVS will respond with eligibility information for the date of service requested or an error message if incorrect information was entered.

**NOTE:** Should you enter the date incorrectly, EVS re-prompts you to re-enter only the date; however, at the prompt, you can return to the “ENTER RECIPIENT NUMBER AND NAME CODE” prompt by pressing “9” and the pound key twice (##).

If the recipient number is not available: At the recipient number prompt, press zero (0) and the pound key twice (##). EVS prompts you with the following: “ENTER SOCIAL SECURITY NUMBER AND NAME CODE”. Using a recipient’s SSN and name code, you may search current eligibility or optionally search past eligibility up to one year. To search past eligibility, follow the name code data entry with the date of service in MMDDCCYY format.

**Example:** 111223334(SSN) and 78# (last name code)

**NOTE:** Social Security Numbers are not on file for all recipients. If you have entered a valid SSN, which is on file, and the recipient is currently eligible for Medical Assistance, EVS will provide you with the current eligibility status and a valid recipient number. You should record this information.

To repeat the eligibility status, press “1”; to enter the next recipient, press “2”; to end the call, press the pound key twice (##).

It is important to end the call by pressing the pound key twice (##) to free both your phone line and the EVS line for the next caller.

If you need further assistance with EVS, call Provider Relations Monday – Friday between 8:00 a.m. and 5:00 p.m. at 410-767-5503 or 800-445-1159.
Section V

PREGNANCY SERVICES

All pregnant women must have access to early prenatal care. When a HealthChoice member suspects she is pregnant she should contact her MCO/PCP. MCOs are responsible for scheduling an appointment for the first prenatal visit and seeing the woman within 10 days of the enrollee’s request.

A. PRENATAL SERVICES PRIOR TO MCO ENROLLMENT

SELF-REFERRAL SERVICES (see also HealthChoice Self-Referral Manual)

If a newly enrolled pregnant woman has already established care with an out-of-network provider and that care included a full prenatal examination, risk assessment, and appropriate laboratory tests, the MCO must pay the provider. In the event that an out-of-network provider has provided pre-enrollment care and initiated prenatal care prior to the pregnant woman’s enrollment in an MCO, the prenatal care provider may choose to continue rendering out-of-network prenatal care under these self-referral provisions.

OB Providers can assist in assuring continuity of prenatal care by following the steps outlined below:

- You are encouraged to provide care to pregnant women who are in the Medical Assistance application and MCO selection process.

- If you participate in HealthChoice, let potential HealthChoice members know which MCO(s) your practice participates in and whether you will accept women for out-of-network prenatal care.

- If you participate in one or more MCO(s) and have initiated prenatal care for a pregnant woman who has Medical Assistance, but is not in an MCO, encourage her to select an MCO in which you participate. She should call the enrollment broker at 1-800-977-7388 to choose an MCO.

- You are not required to continue providing prenatal care to a pregnant woman who subsequently enrolls in an MCO in which you do not participate.

- You are encouraged to continue to see these women under the self-referral option.

- If a pregnant woman is auto-assigned to an MCO in which you do not participate, tell her to call the enrollment broker at 1-800-977-7388; she may be able to change MCOs.

- The MCO is responsible for the payment of comprehensive prenatal care for a normal pregnancy, including prenatal, intra-partum, and postpartum care at the established Medicaid rate and without preauthorization.

- Some dental services are covered during pregnancy. Please encourage pregnant women at their initial prenatal visit to call the Maryland Healthy Smiles Program at 1-888-696-9596.
Prenatal care providers should follow these guidelines for the provision of self-referral pregnancy related services:

- Inform the member’s MCO that you plan to continue to provide prenatal care to the member as an out-of-network provider.

- Refer the member to the MCO’s OB case management services or special needs coordinator (MCOs are required to have these services for pregnant women). (see appendix).

- Screen the member for substance abuse using a screening instrument that is (1) appropriate for the detection of both alcohol and drug abuse (2) recommended by the Substance Abuse and Mental Health Services Administration (SAMHSA) of the U.S. Department of Health and Human Services, and (3) appropriate for the age of the patient. Refer to the MCO’s Behavioral Health Organization, if indicated. (see appendix).

- Complete the *Maryland Prenatal Risk Assessment Form (DHMH 4850)* (see appendix) and promptly forward the form to the appropriate local health department ACCU Program. (*Prior* to the pregnant woman’s enrollment in an MCO, completion of the risk assessment is billed to MA using billing code H1000). Check with your MCO about billing this service for women once enrolled in the MCO.

- Refer the member to the local health department for community resources, including nutritional counseling.

- Providers should document in the medical record that health education and counseling appropriate to the needs of the pregnant woman was provided. The provider may then bill the MCO for an “Enriched” maternity service at each visit using billing code H1003. **You may only bill for one unit of “Enriched Maternity Services” per visit.** The *Enriched Maternity Services Record Form* is used to record services rendered (see appendix).

- When consultation or referral for high-risk prenatal care is indicated, make referrals to the member’s MCO network providers only.

- Bill the member’s MCO for laboratory, radiology, and pharmacy services provided on-site in conjunction with pregnancy related services.

- When it is necessary to refer off-site for laboratory, radiology, and pharmacy services, use only those providers who are in the member’s MCO network.

- Prior to the eighth month of pregnancy the prenatal care provider should instruct the pregnant woman to contact her MCO for assistance in choosing a provider for the newborn.

- For all non-pregnancy related medical services, refer pregnant women to their “in network” primary care provider (PCP).
B. BILLING/PROCEDURE CODES

Prenatal care providers typically bill MCOs using CPT evaluation and management codes (99201 – 99205 and 99211 – 99215) and two Healthy Start codes (H1000 and H1003). The most commonly used codes are:

<table>
<thead>
<tr>
<th>CPT Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>99201</td>
<td>Office visit, new patient, minimal</td>
</tr>
<tr>
<td>99202</td>
<td>Office visit, new patient, moderate</td>
</tr>
<tr>
<td>99203</td>
<td>Office visit, new patient, extended</td>
</tr>
<tr>
<td>99204</td>
<td>Office visit, new patient, comprehensive</td>
</tr>
<tr>
<td>99205</td>
<td>Office visit, new patient, complicated</td>
</tr>
<tr>
<td>99211</td>
<td>Office visit, established patient, minimal</td>
</tr>
<tr>
<td>99212</td>
<td>Office visit, established patient, moderate</td>
</tr>
<tr>
<td>99213</td>
<td>Office visit, established patient, extended</td>
</tr>
<tr>
<td>99214</td>
<td>Office visit, established patient, comprehensive</td>
</tr>
<tr>
<td>99215</td>
<td>Office visit, established patient, complicated</td>
</tr>
<tr>
<td>H1000</td>
<td>Prenatal care, at risk assessment (bill once)</td>
</tr>
<tr>
<td>H1003</td>
<td>Prenatal care, at risk enhanced service education</td>
</tr>
<tr>
<td>59410</td>
<td>Vaginal delivery, including postpartum care</td>
</tr>
<tr>
<td>59515</td>
<td>Cesarean delivery, including postpartum care</td>
</tr>
<tr>
<td>59430</td>
<td>Postpartum care only</td>
</tr>
</tbody>
</table>

Circumcision

MCOs are responsible for payment of circumcisions performed by an obstetrician who provided delivery services for a woman under the self-referral provision. When billing for newborn circumcisions (CPT 54150 or 54160) you must use the newborn’s name and MA number. Contact the nurse consultant in the Division of Outreach and Care Coordination at (410) 767-6750 or 1-800-456-8900 for additional information.

C. PRENATAL SERVICES AFTER MCO ENROLLMENT

Note: Check with your MCO about their reimbursement policy.

MCO SERVICES

The MCO or its contracted provider has responsibility for assuring the following for pregnant and postpartum women:

- The MCO must provide easy access to prenatal care, including an appointment for the first visit within 10 days of request.

- The MCO must assure access to appropriate levels of care including inpatient, outpatient, and emergency services. This includes providing an adequate network of providers including obstetricians-gynecologists, perinatologists, pediatricians, neonatologists, anesthesiologists, dentists and other health care providers, in order to deal with complex maternal and infant health issues. The provision of appropriate emergency transfer of pregnant women and newborns to tertiary facilities, when necessary, is also required.

- The MCO must assure that the prenatal care provider completes the Maryland Prenatal Risk Assessment (DHMH 4850) at the first prenatal visit. The provider must fax the risk assessment, within 10 days after completion, to the LHD ACCU Program in the county in which the woman resides. **NOTE:** Completion of the Maryland Prenatal Risk Assessment is required for all Medicaid patients including those enrolled in an MCO. Check with your
MCO(s) about their reimbursement policy for completion of the risk assessment form, as the MCO may consider this service to be part of their fee. If you are uncertain about your MCO’s policies or have billing questions, contact the MCO’s Provider Relations Department (see appendix).

- The ACCU must refer women identified as high risk, based on the risk assessment screening, to the MCO in which the woman is enrolled, so OB case management services can be offered.

- All pregnant recipients, identified by the Maryland Prenatal Risk Assessment, are referred to their MCO by DHMH for coordination of care.

- The MCO must assure that risk-related education is provided including smoking cessation education; nutrition education; drug and alcohol education; HIV/STI education, and contraceptive options counseling.

- The MCO must refer pregnant women to the WIC Program at 800-242-4942.

- The MCO must provide an appropriate level of self-referred substance abuse services, including comprehensive services, when indicated. These services must include specialized intensive day treatment that allows for children to accompany their mother.

- The MCO must follow ACOG standards for determining frequency of visits, including care beginning in the first trimester with visits every four weeks for the first 28 weeks of pregnancy; every two weeks for the next eight weeks and weekly thereafter until delivery.

- The MCO must link the pregnant woman with a pediatric provider, prior to the eighth month of pregnancy.

- The MCO must ensure coordination of care or access to case management, as appropriate, for high risk pregnancies and disease management. Each MCO has prenatal programs available offering outreach and education to pregnant members, the goals of which are to encourage compliance, manage problems, and reduce negative outcomes. Additional information can be obtained by contacting each MCO’s Prenatal Program (see appendix).

- The MCO must provide postpartum care and access to all family planning options, including tubal ligation. A consent form must be signed at least 30 days prior to the sterilization. All providers are required to complete Maryland Medicaid’s Sterilization Consent Form (DHMH 2989) (see appendix).

- Providers should notify the MCO when a pregnant woman is missing appointments or having difficulty adhering to the medical plan of care.
Coverage of Breast Feeding Supports

WIC:

The WIC Program will provide manual breast pumps for nursing moms who are enrolled in the WIC program. WIC recipients may contact their local WIC Program for additional breastfeeding support.

Medicaid and Managed Care Organizations:

Medicaid and all MCOs cover breast pumps based on medical necessity. For pre-authorizations:

- MA Fee-for-Service, call 410-767-1739
- MCOs, contact the customer service number on back of recipient’s MCO card

Other Resources:

Section VI

MEDICAID FEE-FOR-SERVICE PROCEDURES

A. PRENATAL CARE

Prior to enrollment in the MCO, pregnant women and select populations ineligible for enrollment in HealthChoice, may access care on a “fee-for-service” basis.

PROCEDURES

- The Medicaid Program does not reimburse physicians for “global” maternity care services. Maryland Medicaid does not use CPT codes 59400, 59510 and 59610. Providers must bill deliveries separately from prenatal care. This is discussed in section “B” under Maternity and Postpartum Services.

- The Maryland Medical Assistance Program no longer uses antepartum codes 59425 and 59426. Under the Health Insurance Portability and Accountability Act (HIPAA) Maryland Medicaid is required to use nationally recognized procedure codes. Prenatal care providers should use the appropriate evaluation and management code for each prenatal visit. The evaluation and management codes are as follows:

<table>
<thead>
<tr>
<th>CPT Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>99201</td>
<td>Office visit, new patient, minimal</td>
</tr>
<tr>
<td>99202</td>
<td>Office visit, new patient, moderate</td>
</tr>
<tr>
<td>99203</td>
<td>Office visit, new patient, extended</td>
</tr>
<tr>
<td>99204</td>
<td>Office visit, new patient, comprehensive</td>
</tr>
<tr>
<td>99205</td>
<td>Office visit, new patient, complicated</td>
</tr>
<tr>
<td>99211</td>
<td>Office visit, established patient, minimal</td>
</tr>
<tr>
<td>99212</td>
<td>Office visit, established patient, moderate</td>
</tr>
<tr>
<td>99213</td>
<td>Office visit, established patient, extended</td>
</tr>
<tr>
<td>99214</td>
<td>Office visit, established patient, comprehensive</td>
</tr>
<tr>
<td>99215</td>
<td>Office visit, established patient, complicated</td>
</tr>
</tbody>
</table>

Indicate the appropriate diagnosis code: V22 for normal pregnancy or V23 for high-risk pregnancy on claims submitted related to prenatal care visits.

- Medicaid pays for medically necessary services related to prenatal care such as lab tests, prenatal vitamins and prescription drugs, sonograms, and non-stress tests. Use the appropriate CPT codes for ancillary services.

SERVICES

- **Maryland Prenatal Risk Assessment**
  Maryland Medicaid pays prenatal care providers for completion of the Maryland Prenatal Risk Assessment Form (MPRA) in addition to the prenatal visit fee. (see appendix). The billing code for this service is H1000. **You may only bill for one risk assessment charge per pregnancy.**
Complete the Maryland Prenatal Risk Assessment Form at the initial prenatal visit. Within 10 days of this initial visit forward the form to the local health department (LHD) ACCU Program in the county where the pregnant woman resides (see appendix). Completion of the risk assessment is important because it assists in identifying women at risk for low birth weight or pre-term delivery. These women are given priority for care coordination services.

*NOTE: It is acceptable to document only the last 4 digits of social security number.

**Enriched Maternity Services**
Medicaid will pay providers an additional fee when “enriched” maternity services are provided at each office visit to an eligible recipient. These services may include:
- Counseling
- Health education
- Nutrition education
- Care coordination
- Contraceptive counseling
- Referrals to services such as WIC, smoking cessation, and alcohol or substance abuse treatment services.

*You may only bill for one unit of enriched maternity services per visit.*

All pregnant women with Medicaid can benefit from “enriched” maternity services regardless of risk status. We ask that you provide the scope of service appropriate to the woman’s individual level of need. Documentation must be noted in the medical record to support that health education and counseling appropriate to the needs of the pregnant woman was provided in order to bill for this service. We offer a format, *Enriched Maternity Services Record Form* (see appendix) that can be photocopied for use to document these “enriched” maternity services. Providers may bill for an “enriched” maternity service at each visit using billing code H1003. For additional information call the Division of Outreach and Care Coordination at 410-767-6750 and ask to speak with a nurse consultant.

An example of a prenatal visit with a new patient:
Evaluation/Management (99202 – 99205)
Prenatal care, at risk assessment (H1000)
Prenatal care, at risk enhanced service education (H1003)

An example of a prenatal visit with an established patient:
Evaluation/Management (99211 – 99215)
Prenatal care, at risk enhanced service education (H1003)

**Substance Abuse Services**
Type of Provision: Self-Referral. The purpose of this provision is to remove barriers for pregnant women to access substance abuse treatment services. Providers must be an ADAA-certified substance abuse provider.

Pregnant women are allowed to self-refer for substance abuse treatment under the voluntary substance abuse treatment initiative. Information is available at: [http://mmcp.dhmh.maryland.gov/healthchoice/SitePages/Home.aspx](http://mmcp.dhmh.maryland.gov/healthchoice/SitePages/Home.aspx)
B. **INTRAPARTUM AND POSTPARTUM SERVICES**

**BILLING PROCEDURES**

**Vaginal Delivery**
Maryland Medicaid will reimburse for vaginal delivery, including postpartum care as a separate procedure, CPT code 59410. When you submit a CMS-1500 for a delivery which includes other procedures on the same date of service, make sure the CPT code for the delivery is listed on the first line of Block 24 to ensure proper payment. Place a modifier in column 24D, for the second or subsequent procedure on the same date of service.

**NOTE:** Physicians and nurse midwives should bill for vaginal deliveries including postpartum care performed in a home or birthing center using CPT codes 59410 and 59614 with the appropriate place of service, 12 or 25, indicated in Block 24B of the CMS-1500. Providers should bill the unlisted maternity care and delivery code 59899 for supplies used during a vaginal delivery in a home or birthing center. Refer to the *Medical Assistance Physicians Fee Manual and CMS-1500 Billing Instructions* or call Provider Relations at 410-767-5503 or 800-445-1159 for additional billing information.

**Cesarean Delivery**
Cesarean deliveries must be billed as a separate procedure, using CPT code 59515. When you submit a CMS-1500 claim for a cesarean birth which includes other procedures on the same date of service, make sure the CPT code for the cesarean is listed on the first line of Block 24. Place a modifier in column 24D for the second or subsequent procedure.

A tubal ligation performed at the time of a cesarean delivery must be billed separately using procedure code 58611 with a modifier -51. The *Sterilization Consent form (DHMH 2989)* (see appendix) must be readily available for review upon request.

**Postpartum Care**
Maryland Medicaid will pay for postpartum care only using CPT code 59430. Postpartum care includes all the visits after the delivery, in the hospital and the office. Postpartum care is not payable as a separate procedure, unless it is provided by a physician or group other than the one providing the delivery service.

C. **GYN SERVICES**

Annual gynecologic exams for asymptomatic patients should be billed using preventive medicine codes 99383 – 99387 for new patients or 99393 – 99397 for established patients. Please note the Pap smear is considered part of the office visit, and may only be billed by the laboratory that reads and interprets the test. The appropriate evaluation and management codes to be used for symptomatic patients are 99201 - 99205 for new patients or 99211-99215 for established patients.

*Women’s Breast and Cervical Cancer Health Program (WBCCHP)*
Maryland Medicaid’s *Women’s Breast and Cervical Cancer Health Program* provides Medical Assistance coverage for women who have been screened through the Breast and Cervical Cancer Program (BCCP) and diagnosed with breast or cervical cancer. In order to qualify for the program, women must:

- Not be eligible for Medicaid or Medicare
- Be between the ages of 40 and 64 years old;
- Be a Maryland resident;
- Be uninsured, or have insurance that does not cover cancer treatment;
- Be in need of treatment

For additional information, you may contact the *Breast and Cervical Cancer Program* at your local health department (see appendix).

**Hysterectomy Services**

Maryland Medicaid will reimburse for a hysterectomy under the following conditions:

- The physician who obtained authorization to perform the hysterectomy has **informed the individual** and her representative, if any, **orally and in writing**, that the **hysterectomy will render the individual permanently incapable of reproducing**, and

- The **individual** or her representative, if any, **has signed a written acknowledgement of receipt of that information**, or

- The individual was already sterile before the hysterectomy, or

- The individual requires a hysterectomy because of a life threatening emergency and the physician determines that prior informing and acknowledgement are not possible, and

  - The physician who performs the hysterectomy (1) certifies, **in writing** via the **Document for Hysterectomy (DHMH 2990)** (see appendix) that the individual was already sterile at the time of the hysterectomy and states the cause of the sterility, or (2) certifies, **in writing**, that the hysterectomy was performed under a life-threatening emergency situation in which the physician determines that prior acknowledgement was not possible. The physician must also include a description of the nature of the emergency.

  ➢ **NOTE:** Regulations require the physician who performs the hysterectomy (not a secondary provider such as an assisting surgeon or anesthesiologist) to certify that the woman met one of the specified exemptions.

  **Patient consent (signature) is not required on the Document for Hysterectomy (DHMH 2990) if the patient is over age 55.** A copy of the DHMH 2990 must be kept in the patient’s medical record and readily available for review upon request. See appendix for hysterectomy procedure codes.

**D. HOSPITAL ADMISSIONS**

Pre-authorization by Delmarva Foundation, Inc. (DFMC) the Program’s Utilization Control Agent (UCA) is required for all elective hospital admissions for recipients covered under Medicaid’s fee-for-service program. It is the hospital’s responsibility to obtain pre-authorization by calling DFMC at 866-571-3629. Questions concerning hospital services should be directed to 410-767-1722.
E. FAMILY PLANNING SERVICES

All women with Medical Assistance are covered for family planning services and are free to choose the Medicaid family planning provider of their choice. Women enrolled in MCOs are allowed to go to an out-of-network provider for family planning services without a referral from their PCP. While contraceptive management should be a component of primary care, women often prefer to receive their annual pelvic exam and related screenings from an OB/GYN provider or family planning clinic. However, providers need to be aware that problem-oriented visits for GYN care do require approval from the MCO and are not covered for women enrolled in PAC or the Family Planning Program.

We encourage you to retain the women you have delivered, as patients, for contraceptive management. If you are unable to do so, please refer them to a Local Health Department, Planned Parenthood Clinic, or Community Health Center, also referred to as Federally Qualified Health Center (FQHC) (see appendix). Women can also obtain a list of family planning resources, by calling the Maternal-Child Health Information Line at 1-800-456-8900.

FQHCs are designed to provide primary care to all persons regardless of their insurance or MA status, and regardless of their ability to pay. The FQHC offers a range of services such as treatment of chronic conditions (i.e.: hypertension or diabetes), office visits for sick and well care, basic laboratory tests and x-rays, screenings and referrals to alcohol and drug addiction services, and referrals for mental health care. Providers are encouraged to refer women who have “family planning only” coverage in need of primary health services to one of these health centers.

**Self Referral Services** (see also HealthChoice Self-Referral Manual)

Family planning services provide individuals with the information and means to prevent unplanned pregnancy and maintain reproductive health, including medically necessary and appropriate office visits and the prescribing of contraceptive methods. Federal law permits Medicaid recipients to receive family planning services from any qualified provider. HealthChoice and PAC members may self-refer for family planning services without prior authorization or approval from their PCP, with the exception of permanent sterilization procedures.

**NOTE:** Women enrolled in PAC are eligible for all family planning options, except permanent sterilization. Abortion services are not covered.

The scope of services covered under the “self-referral” provision is limited to those services required for contraceptive management. The diagnosis code (V25) must be indicated on the claim form in order for the MCO to recognize that the preventive medicine or E&M code is related to a family planning service.

**Maryland Medicaid Family Planning Program**

Beginning January 1, 2012 Maryland Medicaid’s Family Planning Program is expanding access to family planning services for all women under age 51 who meet specific eligibility criteria as a result of the “Family Planning Works Acts” passed in 2011. Women submit an application and may receive coverage if they meet age, income (under 200% of federal poverty level – FPL) and other eligibility requirements.

Eligible women who receive pregnancy coverage under the Maryland Children’s Health Program will continue to be enrolled, automatically, for one year in the Maryland Medicaid Family Planning Program (FPP), following the end of their pregnancy related eligibility.
Women who are covered under this program will have one year of continuous coverage unless they 1) move out of the State of Maryland; 2) become eligible for coverage in another MA eligibility category; 3) obtain permanent sterilization; 4) report income over the eligibility requirement for the program; 5) contact Maryland Medicaid and ask to be removed from the program; 6) are over 50 years old.

Women obtaining coverage on or after January 1, 2012 must complete a redetermination process annually in order to continue receiving benefits under the FPP. Women can be canceled prior to the end of their eligibility period for any of the reasons indicated above, or if they fail to respond to written requests for redetermination information.

The Family Planning Program does not cover abortion services, prenatal care or hysterectomies. Family Planning recipients who become pregnant are eligible for full Medicaid coverage, but must apply through their LHD or LDSS (see appendix).

Medicaid’s Family Planning Program covers services related to birth control only. Diagnostic and treatment services for infertility, gynecological, or HIV-AIDS related conditions or cancer are not covered. Women in need of primary care services should be referred to a FQHC (see appendix). Women may also obtain information by calling the Maternal-Child Health information line at 1-800-456-8900.

**Services/Supplies**

Maryland Medicaid’s Family Planning Program covers services related to birth control only, including but not limited to medically necessary office visits, laboratory tests, all FDA-approved contraceptive devices, methods, and supplies and voluntary permanent sterilizations (See appendix). There are no pharmacy co-pays.

- **Condoms** - Recipients can obtain 12 latex condoms from the pharmacy without a prescription.

- **Oral Contraceptives** - A maximum six-month supply may be dispensed per prescription. **Effective October 15, 2004** prescribers must complete a Food and Drug Administration (FDA) *MedWatch form* and forward a copy to the Maryland Pharmacy Program for review before the Program will reimburse at the “brand” rate for prescriptions dispensed as “brand medically necessary”. A copy of the *MedWatch form* can be obtained from the DHMH website at [http://mmcp.dhmh.maryland.gov/pap/SitePages/paphome.aspx](http://mmcp.dhmh.maryland.gov/pap/SitePages/paphome.aspx)

- **Emergency Contraception** - Plan B (generic: Next Choice)

Emergency contraception is a second chance to help prevent an unplanned pregnancy following contraceptive failure, unprotected sex, or sexual assault. Plan B was approved by the FDA for prescription use in July 1999. In August 2006, it was approved for over the counter (OTC) use. OTC sales are restricted to individuals age 17 or older. A valid government-issued ID must be presented for age verification. **Individuals age 16 and younger must have a valid prescription.** There is a limit to coverage of one Plan B prescription every three months.

- **Permanent Sterilizations/Tubal Ligations**

  1. The individual is at least **21 years old** at the time consent is obtained,

  2. The individual is not **mentally incompetent**.
3. The individual is not institutionalized,

4. The individual has voluntarily given informed consent as described in Part I of the Sterilization Consent Form (DHMH 2989) (see appendix) and

5. At least 30 days, but no more than 180 days, have passed between the date of informed consent and the date of sterilization, except in the case of premature delivery or emergency abdominal surgery. An individual may consent to be sterilized at the time of a premature delivery or emergency abdominal surgery, if at least 72 hours have passed since he or she gave informed consent for the sterilization.

In the case of premature delivery, the informed consent must have been given at least 30 days before the expected date of delivery. Providers must obtain pre-authorization from the MCO for HealthChoice members before any sterilization procedure is performed.

Sterilization/tubal ligation procedures must be billed on a separate CMS-1500 (CPT codes 58565, 58600-58615, 58670, and 58671). If the procedure was performed on the same date of service as another procedure, a modifier is required in Block 24D for the second or subsequent procedure. A copy of the DHMH 2989 - Sterilization Consent Form must be kept in the patient’s medical record and readily available for review upon request.

NOTE: An individual is not eligible for the sterilization procedure until the 32nd day after giving consent (signature date). Women who obtain a tubal ligation are no longer eligible for any services under the family planning program.

F. ORAL PRESCRIPTIONS under MEDICAID

Maryland law allows Maryland Medicaid pharmacists to accept verbal prescriptions from prescribing providers over the phone for Medicaid recipients. All information required by federal and state law must be included on the prescription. NOTE: Phone-in prescriptions will not be allowed for Schedule II controlled substances. Any questions should be directed to the Division of Pharmacy Services at 410-767-1455.

State Medicaid Programs must use tamper-resistant prescription pads for written prescriptions with all of the following characteristics:

- one or more industry-recognized features designed to prevent unauthorized copying of a completed or blank prescription form;
- one or more industry-recognized features designed to prevent the erasure or modification of information written on the prescription by the prescriber;
- one or more industry-recognized features designed to prevent the use of counterfeit prescription forms.

For more information, see the Maryland Medical Assistance Program General Provider Transmittal Number 63 at http://mmcp.dhmh.maryland.gov/docs/PT%205-08.pdf

G. PREGNANCY TERMINATION

The Medicaid Program covers pregnancy termination; however there are coverage restrictions, as required by state law. Under fee-for-service, Medicaid will reimburse providers if one of the conditions listed below exists:

1. A continuation of pregnancy is likely to result in the death of the woman;
2. The woman is a victim of rape, sexual offense, or incest.
It can be ascertained by the physician within a reasonable degree of medical certainty that the fetus is affected by genetic defect or serious deformity or abnormality.

It can be ascertained by the physician within a reasonable degree of medical certainty that termination of the pregnancy is medically necessary because there is a risk that continuation of the pregnancy could have a serious and adverse effect on the woman’s present or future physical health.

Continuation of the pregnancy is creating a serious effect on the woman’s present mental health and if carried to term a serious effect on the woman’s future mental health.

NOTE: Pregnancy terminations are not covered for women found eligible under the P02, P10, P11, P10N, or P10U coverage groups, as noted in the EVS.

A copy of the Certification of Abortion (DHMH 521) (see appendix) must be kept in the patient’s medical record and readily available for review upon request, for services related to pregnancy termination (except spontaneous abortion or treatment of ectopic pregnancy) or for medical procedures necessary to voluntarily terminate a pregnancy for victims of rape or incest. The following procedure codes should be used when billing Maryland Medicaid for services related to pregnancy termination: 59840-59841; 59850-59852; 59855-59857; and 59866.

Medical Abortion: Termination of Early Pregnancy with Mifepristone (Mifeprex®)

The Program covers on a fee-for-service basis, the administration of Mifepristone also known as “RU-486”, as a medical termination procedure. CPT code 99199 “unlisted special service or procedure” should be used for billing purposes. The fee for this service is based upon three office or clinic visits over a two-week period for administration of the drug and appropriate follow-up, and the actual cost of the drugs. Physicians may not bill for office visits in addition to procedure code 99199.

“Medical Abortion” must be written on the CMS-1500 below the procedure code in Block 24D. Diagnosis code 635 “legally induced abortion” or 638 “failed attempted abortion” must be entered on Line 1 of Block 21. Coverage is limited to the same medical reasons as for surgical terminations and a completed Certification of Abortion (DHMH 521) must be readily available for review upon request. The date of service on this form and the CMS-1500 is the date that the patient signs the required Patient Agreement and takes orally the 600 mg of mifepristone.

For recipients enrolled in an MCO, the Medicaid Program will provide coverage for:

- Pregnancy termination procedures
- Related services provided at a hospital on the day of the procedure or during an inpatient stay, or
- A pregnancy termination package as may be provided by a freestanding clinic.

The MCO, however, is financially responsible for any related services, not indicated above that may be performed as part of a medical evaluation prior to the actual performance of a pregnancy termination for which the physician who performs the procedure completes a Certification for Abortion Form (DHMH 521). (see appendix).

Section VII
ADMINISTRATIVE CARE COORDINATION SERVICES

The Administrative Care Coordination/Ombudsman (ACCU) program serves as a local resource for information and consultation for Medicaid and managed care recipients to enhance their access to Medicaid services and to perform ombudsman functions for Maryland’s managed care program, HealthChoice. This grant funds local health department staff whose duties are to assist the Department of Health and Mental Hygiene’s central office staff in the proper and efficient day-to-day operation/administration of the Maryland Medicaid Program. To effectively carry out the duties specified within this grant, the LHD must establish and maintain good working relationships with Managed Care Organizations (MCOs) and Medicaid providers.

One of the goals of the program is to improve birth outcomes for Medicaid eligible women and reduce infant mortality by identifying and addressing predictors of poor birth outcomes and poor child health. Early interventions are important to assure that pregnant recipients access timely care. Local health departments provide linkages to care, and care coordination services to “at risk” pregnant, postpartum, and child recipients to ameliorate problems and improve utilization of the health care system, and assist with adherence to the medical plan of care. ACCU staff assists participants to access and utilize the managed care system and other health-related services.

Medical case management is the responsibility of the managed care organizations. The MCO retains full responsibility for the medical management of its HealthChoice enrollees. High-risk obstetrical home care for women with medical conditions/risks is the responsibility of the MCOs. These services, which are frequently ordered for pregnant women in need of hypertension, diabetes, and pre-term labor management, are the responsibility of the MCO.

ACCU staff work closely with medical providers, the MCO, and other health related and social service providers to ensure participants are linked with appropriate resources and to facilitate effective care coordination. The LHD collaborates with the MCO’s high risk/special needs coordinator to coordinate services for program participants.

Effective coordination requires partnering among medical providers, managed care organizations, and other health and social services providers.

The ACCU Program focuses on the following results:
1. Healthy mothers;
2. Babies born healthy;
3. Healthy families with access to health care;

Additional information, including how to make referrals, can be obtained by contacting the local health department in your county (see appendix) or Medicaid’s Division of Outreach and Care Coordination at 410-767-6750.

Maryland Prenatal Risk Assessment Form Instructions

**Purpose of Form:** Identifies pregnant women who may benefit from local health department Administrative Care Coordination (ACCU) services and serves as the referral mechanism. ACCU services complement medical care and may be provided by public health nurses and social workers through the local health departments. Services may include resource linkage, psychosocial/environmental assessment, reinforcement of the medical plan of care, and other related services.

**Form Instructions:** On the initial visit the provider/staff will complete the demographic and assessment sections for all pregnant women enrolled in Medicaid at registration and those applying for Medicaid.

- Print clearly; use black pen for all sections.
- Press firmly to imprint.
- White-out previous entries on original completely to make corrections.
- If client does not have a social security number, indicate zeroes.
- Indicate the person completing the form.
- Review for completeness and accuracy.

**Faxing and Handling Instructions:**
- Do not fold, bend, or staple forms. ONLY PUNCH HOLE AT TOP OF FORM IF NECESSARY
- Store forms in a dry area.
- Fax the MPRAF to the local health department in the client's county of residence.
- To reorder forms call the local ACCU.

**Definitions (selected):** Data may come from self-report, medical records, provider observation or other sources.

CONSENT FOR STERILIZATION

NOTICE: YOUR DECISION AT ANY TIME NOT TO BE STERILIZED WILL NOT RESULT IN THE WITHDRAWAL OR WITHHOLDING OF ANY BENEFITS PROVIDED BY PROGRAMS OR PROJECTS RECEIVING FEDERAL FUNDS.

I have asked for and received information about sterilization from

Doctor or Clinic

for the information, I was told that the decision to be sterilized is completely up to me. I was told that if I decide not to be sterilized, my decision will not affect my right to future family or treatment. I will not lose any help or benefits from programs receiving Federal funds, such as Temporary Assistance for Needy Families (TANF) or Medicaid that I am now getting or for which I may become eligible.

I understand that the sterilization must be considered permanent and not reversible. I have decided that I do not want to become pregnant, become children or father children. I was told about those temporary methods of birth control that are available and could be provided to me which will allow me to bear or father a child in the future. I have rejected these alternatives and chosen to be sterilized.

I understand that I will be sterilized by an operation known as a

The discomforts, risks

and expenses associated with the operation have been explained to me. All my questions have been answered to my satisfaction.

I understand that the operation will not be done until at least three days after I sign this form. I understand that if it is necessary to operate any time, that my consent was not to be sterilized will not result in the withholding of any benefits or medical services provided by the Federal fund.

I am at least 21 years of age and was born on

Date

I, , twenty consent of my own

free will will be sterilized by

my a method called

Specify Type of Operation

I understand that the consent form expires 180 days from the date of my signature below.

I also consent to the release of this form and other medical records about the operation to:

Representatives of the Department of Health and Human Services, or Employees of programs or projects funded by the Department, but only for determining if Federal laws were observed.

I have received a copy of this form.

Signature and Date

You are requested to supply the following information, but it is not required:

Ethnicity: Racial Designations (please check)

- American Indian or Native Alaskan
- Black or African American
- Hispanic or Other Hispanic Identity
- White

INTERPRETER'S STATEMENT

If an interpreter is provided to assist the individual to be sterilized:

I have conveyed the information and advice presented to the individual to be sterilized by the person obtaining consent. I have also read the consent form to

Interpreter and explained its contents to

Interpreter.

To the best of my knowledge and belief, the individual understands the explanation.

Interpreter's Signature and Date

AVISÓ: LA DECISIÓN DE NO HACERSE LA CIUGUIA O OPERACIÓN PARA LA ESTERILIZACIÓN QUE USTED PUEDE TOMAR EN CUALQUIER MOMENTO, NO VA A RESULTAR EN LA REVOCACIÓN O EL RIESGO DE BENEFICIOS PROPORCIONADOS POR PROGRAMAS O PROYECTOS PATROCINADOS CON FONDOS FEDERALES.

CONSENTIMIENTO PARA LA ESTERILIZACIÓN

Yo he solicitado y recibido información sobre la esterilización de (número del individuo) ante el hecho de que la esterilización es permanente e irreversible, y las molestias, riesgos y beneficios asociados con este procedimiento.

Le ofrecí información y asistencia al individuo que desea ser esterilizado(a) sobre la alternativa disponible de métodos temporales de control de la natalidad. Le explicó que la esterilización es diferente porque es permanente.

Le explicó al individuo que desea esterilizarse que puede retirar su consentimiento en cualquier momento y que ella no perderá ningún servicio de salud o cualquier otro beneficio proporcionado con el patrocinio de fondos federales.

Según mi mejor entender, creo que el individuo que desea esterilizarse tendrá por lo menos 21 años de edad y parece ser mentalmente competente. Ella ha solicitado con conocimiento de causa y voluntariamente el ser esterilizado(a) y parece entender el procedimiento y las consecuencias del procedimiento.

Antes de que (nombre del individuo) firmara esta forma de consentimiento, le expliqué y le di detalles de la operación para la esterilización.

RT I - Check one of the blocks if applicable and sign the certification.

G. I certify that this abortion is necessary because the life of the mother would be endangered if the fetus were carried to term.

I. Attached is a document submitted by an official of a law enforcement agency or public health service where the rape or incest was reported. The document includes the following information:

1. Name and address of victim;
2. Name and address of person making the report (if different from the victim);
3. Date of the rape or incest incident;
4. Date of the report (may not exceed 60 days after the incident);
5. Statement that the report was signed by the person making it;
6. Name and signature of person at law enforcement agency or public health service who took the rape or incest report.

RT II - You must check one of the following blocks and sign the certificate, unless you have checked "I" in Part I, above.

R. I certify that this abortion is necessary because, based on my professional judgement, continuation of the pregnancy is likely to result in the death of the woman.

S. I certify that, within a reasonable degree of medical certainty, based on my professional judgement, termination of pregnancy is medically necessary because there is a substantial risk that continuation of the pregnancy could have a serious and adverse effect on the woman's present or future physical health.

T. I certify that, in my professional judgement, there exists medical evidence that continuation of the pregnancy is creating a serious effect on the woman's present mental health and, if carried to term, there is substantial risk of a serious or long lasting effect on the woman's future mental health.

V. I certify that, within a reasonable degree of medical certainty, based on my professional judgement, this abortion is necessary because the fetus is affected by genetic defect or serious deformity or abnormality.

W. I certify that this procedure is necessary for a victim of rape, sexual offense, or incest, and the incident has been reported to a law enforcement agency or to a public health or social agency.

MARYLAND MEDICAID'S HEALTHCHOICE

43
MANAGED CARE ORGANIZATIONS
PRENATAL PROGRAMS

Amerigroup Community Care (1-800-964-2112)
- Levels of Care:
  Initial assessment done to determine risk level
  - Potential or Low Risk: case management. Frequency of contact is based on the needs of the member. Services provided through the postpartum period
  - High Risk: case management. Requires a high level of case management intervention and provided through the postpartum period
- Educational Programs/Materials:
  childbirth classes, Amerigroup baby showers, internet web portal available, online access for educational materials and links, Ameritips (provided in English and Spanish)
- Incentives:
  Taking Care of Baby and Me - designed to encourage early prenatal care, maintain continuous prenatal care throughout pregnancy and ensure timely follow-up OB visit after delivery

Diamond Plan from Coventry Health Care, Inc. (1-800-727-9951, ext. 1730)
- Levels of Care:
  Not at Risk: initial assessment, contact by member when needed
  At Risk: case management, postpartum follow-up
- Educational Programs/Materials:
  childbirth classes, community baby showers, pregnancy educational packet, new mother and postpartum educational packets
- Incentives:
  gift cards for pregnant members who are compliant with prenatal visits and the postpartum visit

Jai Medical Systems (1-888-524-1999)
- Levels of Care:
  Intensive case management for all pregnant members
- Prenatal Programs:
  Moms Very Important Pregnancy (Moms VIP) program

Maryland Physicians Care (1-800-953-8854)
- Levels of Care:
  Low Risk: initial screening by Care Coordinator, referred to High Risk nurse if needed; reassessment every 3 months; postpartum/newborn assessment after delivery
  High Risk: initial assessment by a nurse; monthly contact; reassessment every 3 months; postpartum/newborn assessment after delivery
- Educational Programs/Materials:
  Pregnancy-related classes, smoking cessation
- Incentives:
  Small Miracles Incentive Program; gift cards for an initial case management assessment, follow-up assessment and for the postpartum assessment

MedStar Family Choice (800-905-1722, option 2)
- Levels of Care:
  Low Risk: initial risk assessment, contact by Outreach Department re: participation in the Momma and Me program
  High Risk: case management services, with contact on a monthly basis to ensure appointment compliance and goal adherence
- Educational Programs/Materials:
  Prenatal and childbirth classes; schedule of classes available on the MedStar web site
- Incentives:
  Momma and Me program, for pregnant women less than 28 weeks gestation at the time of enrollment. Rewards pregnant women for appointment compliance, including a dental visit and health education classes
Priority Partners (1-888-500-8786)
- Levels of Care:
  Outreach Prenatal Team: initial screening and care coordination; refers high risk pregnant women to the Partners with Mom Program
  Partners with Mom Program: identifies high risk pregnant women, provides nurse case management services
- Educational Programs/Materials:
  childbirth education classes, education regarding smoking cessation and substance abuse

UnitedHealthcare (1-800-714-3519)
- Levels of Care:
  Low Risk: initial risk assessment and educational materials, pregnant members are contacted at a minimum of once every 3 months
  Moderate Risk: pregnant members are contacted at least monthly, case management for monitoring and intervention
  High Risk: pregnant members are contacted at a minimum bi-weekly by nurse case manager, comprehensive care planning follow-up through eight weeks postpartum
- Educational Programs/Materials:
  Educational material sent to the member at initiation of pregnancy, childbirth education classes
- Incentives:
  Post Partum Rewards Program: gift card for a postpartum visit between the 21st and 56th day after delivery.

</tbody>
</table>

**NOTE:** Healthcare providers and clinics should only bill for labs and cytopathology services that are provided within their facility. If lab and/or cytopathology results are obtained from an outside lab, the provider or clinic may not bill Medical Assistance for the test(s); the lab should bill Medical Assistance directly.

**Other**

</table>

**Providers and clinics should bill for the acquisition cost of the vaccine. Administration fees are only paid for vaccines obtained through VFC for individuals under age 19.**
Family Planning Program Pharmacy Coverage

The Maryland Medicaid Family Planning Program covers all FDA approved contraceptive devices, methods, and supplies. There are no pharmacy co-pays for contraceptives.

Effective January 1, 2012, when diagnosed as part of a family planning visit, the Maryland Medicaid Family Planning Program will cover treatments for STIs, urinary tract infections and vaginitis, including the following drug classes:

- Antifungals
- Antivirals (for HSV)
- Cephalosporins
- Macrolides
- Miscellaneous beta-Lactams
- Penicillins
- Sulfonamides
- Tetracyclines
- Metronidazole
- Other miscellaneous antibiotics, not otherwise noted above

NOTE: For the non-contraceptive drugs listed above, there are no pharmacy co-pays for women under 21. There is a co-pay of $1-$3 for women 21 and over.

Hysterectomy Services

The following CPT codes should be used when billing Maryland Medicaid for hysterectomy procedures:
