Help for Children with Special Health Care Needs

HealthChoice
Maryland’s Managed Health Care Program

Each Local Health Department has a Administrative Care Coordinator (ACC) serves as a local resource for all HealthChoice members.

The ACC can help you understand your HealthChoice benefits and how to access services.

The ACC target populations include children, pregnant women and postpartum women, individuals with disabilities (physical, mental or developmental) and homeless individuals.

The ACC can help anyone who is eligible for HealthChoice.

Local Health Department
Administrative Care Coordination / Ombudsmen Services

Each HealthChoice MCO has a network of doctors and other providers. Your child must see the doctors who are in your health plan’s network.

You must choose a Primary Care Provider (PCP) for your child.

- The PCP is usually a pediatrician, family doctor, or a nurse practitioner but can be a specialist
- For many MCO benefits and services, you need a referral from your PCP.
- Sometimes your MCO must authorize or approve a service.

Each MCO has a Special Needs Coordinator to help your child get care.

MCO Case Managers may also be available.

Children in HealthChoice
Most children who get Medicaid are in HealthChoice. In HealthChoice most care is provided by your Managed Care Organization (MCO).
